SUMMARY

Motivated Computer Science student at the University of New Brunswick with hands-on experience in full-stack software development, database systems, and modern web technologies. Passionate about building scalable, user-focused applications using Java, Spring Boot, React, and PostgreSQL. Strong communication, teamwork, and problem-solving skills developed through teaching, leadership, and co-op experience.

EDUCATION

University of New Brunswick — Bachelor of Computer Science

Fredericton, NB | Expected Graduation: January 2028

- Concentration: Software Development
- Key Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Design, Software Engineering Principles

EXPERIENCE

Teaching Assistant — University of New Brunswick

Fredericton, NB | Sep 2025 – Present

- Assisted students during Java and C programming labs, explaining algorithms and debugging techniques.
- Graded assignments and labs with accuracy and constructive feedback to support learning.
- Partnered with instructors to identify challenges and enhance lab content delivery.

Database Developer Intern — Steel Plus Network

Moncton, NB | May 2025 – Aug 2025

- Designed and optimized PostgreSQL databases to improve reporting accuracy and reduce query latency.
- Automated data synchronization and reporting processes, cutting generation time by 30%.
- Earned an Outstanding Employer Evaluation for reliability, initiative, and collaboration.

Student Ambassador — University of New Brunswick

Fredericton, NB | Feb 2025 – Present

- Represented the Faculty of Computer Science at outreach events, engaging prospective students.
- Delivered short tech demos and shared insights on student life and academic pathways.

Tutor — Blessed Children Academy

Rivers State, Nigeria | Sep 2022 – Jul 2023

- Delivered one-on-one tutoring in mathematics and science, improving student performance by 20%.
- Developed personalized learning techniques fostering deeper conceptual understanding.

PROJECTS

KingdomTrack — Assignment Management Platform

Spring Boot | React | PostgreSQL | JWT Auth | Supabase

- Built a role-based full-stack web app for assignment tracking, admin dashboards, and real-time updates.
- Implemented secure authentication using Spring Security with access/refresh token support.
- Designed a modern glassmorphism interface using Tailwind CSS for responsive UX.

LazyDrop — Real-Time File Sharing Web App

Next.js | Supabase | Node.js | WebSockets

- Created a real-time file-transfer system using Supabase storage with signed URLs and auto-cleanup.
- Integrated STOMP WebSockets for instant peer updates within temporary sharing sessions.

- Engineered a frictionless, password-free transfer experience focused on speed and security.

Grocery & Meal Planner App

JavaFX | PostgreSQL | API Integration

- Developed a desktop app to manage grocery inventory, expiration dates, and recipe recommendations.
- Implemented PostgreSQL backend and API-based meal suggestions for efficient planning.

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, SQL, HTML, CSS

Frameworks & Tools: Spring Boot, React, Tailwind CSS, Maven, Git, REST APIs, JSON

Databases: PostgreSQL, MySQL, Supabase

Other: Docker, Agile Methodologies, Microsoft Office
